ABOUT ME

Collaborative and self driven electronics and telecommunication engineering undergraduate with a profound interest in full-stack development and user-focused design. Familiar with building scalable platforms, participating in national hackathons, and working with modern web technologies, with a strong passion for problem solving, writing quality code, and continuous learning.

EDUCATION

Cummins College of Engineering Nagpur- B.Tech in Electronics and Telecommunication
Prerna College, Nagpur
Bhavans B.P. Vidya Mandir, Nagpur

2023-2027
HSC Board
SSC Board

EXPERIENCE

Project Intern – IIT Bombay, TUM-IITB SEED Centre

May–July 2025

- Mapped over 1000+ rural technology installations using QGIS and OpenStreetMap.
- Built a full-stack web app to visualize locations and technologies across India using React, Firebase, and Leaflet.
- Integrated CSV/GeoJSON data into dynamic map layers with filter/search functionality, improving rural tech accessibility.
- Enabled user interaction on map points to show detailed information (district, type, lat/lon) from real datasets.

PROJECTS

Axis- AI-Powered Tech Fest Website [Second Runner-up]

Demo

Built a responsive full-stack web app featuring 3D models, AI chatbot, and real-time event updates using Firebase Realtime DB and REST APIs. Integrated EmailJS for automated confirmations and deployed on Vercel.

Sortify - AI-Based Waste Classifier [Team Leader]

Trained a CNN model on labeled datasets to classify waste (plastic, glass, metal) as recyclable/non-recyclable. Also used a pre-trained ML model deployed via a Flask backend with a simple web interface for image uploads and real-time predictions.

Training & Placement Cell & Higher Studies Portal [Team Leader] [Appreciation Prize Recipient]

Built and deployed a full-stack web portal for managing placement and higher studies data for college students. Implemented secure authentication, role-based access, and real-time database integration using Firebase and designed a responsive, user-friendly interface.

COURSES & CERTIFICATIONS

Cybersecurity – HCL
C Programming – Atlanta Institute
UI/UX Intern – Cognifyz Technologies

Machine Learning Onramp, Matlab Onramp – MathWorks
AI for everyone - Coursera
Cross Platform Mobile & Web App Dev - HCL Software

COMPETITIVE HIGHLIGHTS

Contributor – GirlScript Summer of Code (GSSoC) :- Selected contributor collaborating on open-source projects.

Socio Internship – Ultimate Socio Technocrat Led field research across 80% of slum areas in Nagpur to analyze education, healthcare, and other challenges.

Abhyudaya 24.0 & 25.0 – Contributed to event management, technical coordination, and project execution in inter college socio-technical events.

SKILLS

Languages :- Python, Javascript, Java
Database : SQL, MongoDB

Frameworks & Tools : VS Code, Jupyterlab Notebook, Git
Soft Skills : Leadership, Event Management, Public Speaking, Adaptability

LEADERSHIP EXPERIENCE

Coders Club: **Digital Architect**

Engineering India Club: **Technical Head**

Robin Hood Academy: **Volunteer– Education & Outreach**
